

Desert Dragon Minis

Delivery-only resin 3D printing in Las Vegas for miniatures, small custom models, display pieces, tokens, props, board game parts, charms, accessories, and detailed small resin prints.

How it works: Send your STL file, I review it, quote it, print it, wash it, cure it, pack it safely, and deliver or ship it to you. No pickup option for now.

Minimum Order

Minimum print order: \$20

This covers setup, slicing, resin handling, washing, curing, cleanup, packaging, and customer coordination.

Delivery/shipping is separate unless included in a bundle.

Standard Print Pricing

Category	Price	Best For
Tiny Prints	\$5-\$10 each	Tokens, coins, charms, simple accessories, markers, tiny props, small board game pieces. Best as add-ons.
Small Prints	\$10-\$20 each	Standard tabletop minis, small figures, small display objects, simple custom parts, small decorative pieces.
Medium Prints	\$20-\$45 each	Larger minis, detailed figures, busts, terrain scatter, small statues, detailed props.
Large Small-Format Prints	\$45-\$100+	Boss monsters, dragons, larger display pieces, multi-part models, large bases, or prints that use a large part of the build plate.
Complex / Multi-Part	Custom quote	Models needing assembly, hollowing, drainage holes, heavy supports, fragile details, or extra print cycles.

Bundle Pricing

D&D; / Tabletop Party Pack 4-6 standard character minis. Great for D&D; parties, one-shots, campaign groups, and custom player characters.	\$49-\$79
DM Encounter Bundle A mix of heroes, monsters, NPCs, props, tokens, or terrain pieces for a session or campaign arc.	\$99-\$199+
Small Custom Print Batch Multiple small non-mini items printed together: board game parts, charms, accessories, decorative items, small prototype pieces.	\$25-\$75+
Boss Fight / Display Bundle A larger centerpiece model plus optional minions, props, bases, or matching accessories.	\$129+

Delivery & Shipping - No Pickup For Now

All orders are delivery-only for now. Finished resin prints are fragile, so every order includes protective packaging before handoff to the carrier or local delivery method.

Option	Price	Notes
Local Las Vegas Delivery	\$8-\$15+	Best for nearby delivery. Final fee depends on distance, timing, and order size. Can be done by owner delivery or a local courier option once tested.
Standard Shipped Delivery	Customer pays label cost + \$3-\$8 handling	Best default option for most orders. Use tracked shipping through USPS/UPS label services. Handling covers box, padding, tape, labels, and packing time.
Priority / Faster Shipping	Customer pays carrier rate + handling	Available when needed. Recommended for higher-value or time-sensitive orders.
Free Delivery Promo	Optional	Consider free local delivery or free standard shipping only on larger orders, such as \$100+ or \$150+.

Recommended Delivery Setup

Best MVP setup: Use Pirate Ship or USPS/UPS labels for shipped orders, and only use local delivery when the fee makes sense. Amazon Shipping may become useful later, but start with the easiest low-volume tools first unless Amazon gives you a better rate and smooth account access.

Packing standard: Every print should be fully cured, dry, wrapped in soft padding, protected from snapping, and boxed so fragile parts do not carry pressure during transit.

Add-On Services

Add-On	Price	Details
File prep / repair	\$10-\$30+	Resizing, hollowing, orientation, support work, repair, or extra setup.
Support removal	Included for most simple prints	Very delicate models may require careful cleanup and may cost extra.
Rush order	+25% to +50%	Available depending on printer schedule and delivery/shipping timing.
Priming	\$5-\$15+ per piece	Optional primer coat for painters once offered.
Extra packaging	\$3-\$10+	For very delicate pieces, multiple parts, or premium display prints.

Turnaround Time

Standard production time: 2-5 days before delivery/shipping handoff. Large orders, complex models, failed prints, or fragile models may take longer. Delivery/shipping transit time is separate from production time.

Important Notes

- Prices are estimates. Final pricing depends on model size, detail, resin usage, print time, supports, cleanup difficulty, packing needs, and delivery/shipping method.

- Resin prints are great for highly detailed display pieces and tabletop models, but they may be brittle. They are not ideal for heavy-duty mechanical parts, food-safe items, heat-exposed parts, or anything that needs to hold significant weight.
- Customers must confirm they own the file or have permission to have it printed. Desert Dragon Minis may refuse files that appear to violate copyright, licensing, or intellectual property rules.
- Payment is due before printing begins. Once printing has started, refunds are not available unless the issue is caused by Desert Dragon Minis.
